

Product Description

The NL717 Eco-Grass Blanket are sections of grass covered soil held together by matted roots. Eco-grass blankets are grown in organic based soil, making the rolls light and easy to install. The NL717 Eco-Grass Blanket is pre-vegetated and consists of mature vegetation at time of supply.

Plant Species: Mix of Creeping Red, Chewings and Hard Fescue grasses

Technical Data

▪ Thickness (mm)	20
▪ Dry weight (kg/m ²)	10.0
▪ Saturated weight (kg/m ²)	25.0
▪ Stormwater retention(L/m ²)	15.0

Packaging Properties

▪ Length (m)	1.52
▪ Width (m)	0.61
▪ Area (m ²)	0.93
▪ Diameter of roll (m) (when blanket is rolled up)	0.3
▪ Length of roll (m) (when blanket is rolled up)	0.61
▪ Sat. weight of roll (kg) (when blanket is rolled up)	23.18

Recommended Application

- Abut tightly all end and side seams.
- Start next row with a half roll so the end joints stagger between rows.
- Cut and fit to the edge of the non-vegetated border zone along the roof edge and around penetrations.
- Saturate vegetation thoroughly.
- Eco-Grass blankets can tolerate moderate foot traffic.
