

Light on Your Roof & On Your Wallet

Key Features

- Saturated weight 58 kg/m²; 12 lb/ft²
- Lightweight water retention technology
- Ideal solution for retrofits, factories & warehouses that avoids excessive loading
- Between 8-10 species of sedum, and mosses
- Delivered in rolls: Easy to transport, install and maintain
- Pre-grown outdoors; instant green with 85% foliar coverage
- Soilless, no “loose” growing medium and allows for a clean, fast and simple installation
- Low upfront & long-term maintenance costs
- Retractable for easy roof membrane access

System Properties

Build-Up	Thickness (mm)	Dry Wt. (kg/m ²)	Sat. Wt. (kg/m ²)	Water ret. (l/m ²)
